

bigFiles

pour trouver des gros fichiers

```
#pour trouver des gros fichiers, ici de plus de 10Mo
#script to find files bigger than (here) 10Mo
#results sended to file $HOME_DIR/bigFiles
find . -size +10M -ls > ~/bigFiles
#now echo onlly filesize, filename, sorted by filesize
gawk -F" " '{print $7 ":" $11}' ~/bigFiles | sort -n | more
```
