Ester Poly! Psychedelic Experimental Punk Clash! This golden combination consists of bassist Martina Berther and drummer Béatrice Graf.

A clash of two women from different generations and genres, exploding the chains of traditional music styles. The bass strikes angry orgies of distortion with the bow, the drums beat the soul into erotic fields - always edgy with a political message and an antitypical attitude. Is that jazz? Is it Rock'n'Roll? No idea - but definitely Ester Poly!

- Martina Berther: E-Bass / Vocals
- Béatrice Graf: Drums / Keys / Vocals
